3 Easy Steps To Install

- 1. Drop Over**
- 2. Tighten**
- 3. Pin (for securing)**
**Patent Pending*

Place rollers at any of three heights

6061 Aluminum for extreme durability

- Rollers ride on rated bearings

For 1-1/2" perforated tubing

For 1-5/8" or deep strut

For 7/8" or shallow strut

For cable tray

- Works great attaching to a structural member as well, such as the flange of an I-beam or column

Locking pin holes

SP-181 Locking Underpins

- Two each included

20" TRAY ROLLER

Faster

- Installs 10x faster than standard tray rollers
- Secures into place with two locking underpins
- No additional tools needed

Safer

- Double-secure bolt and pin
- Withstands cable pulling loads of up to 2,000 lb.*
- Each roller rides on rated bearings
- Steel welded frame
- Reduces the risk of job site injuries

Smarter

- Customizable configuration for any installation
- Versatility to handle a variety strut types & supporting members

Model	Description	Specifications
TRST20	20" Tray Roller	23"L X 2"W X 8.5"H 15 lb.

*Check tray manufacturer specs for maximum capacity.

Roller clamps to rung, strut, or I-beam. Simply tighten the bolt onto supporting member and install locking underpins.

Compatible with other systems.
