*\*Patent Pending*

Locking pin holes

**SP-181** Locking Underpins  
• Two each included

Place rollers at any of three heights

**6061 Aluminum for extreme durability**

- Rollers ride on rated bearings

**For 1-1/2" perforated tubing**  
**For 7/8" or shallow strut**  
**For 1-5/8" or deep strut**

**For cable tray**

- Works great attaching to a structural member as well, such as the flange of an I-beam or column

## 5" TRAY ROLLER

### Faster

- Installs 10x faster than standard tray rollers
- Secures into place with two locking underpins
- No additional tools needed

### Safer

- Double-secure bolt and pin
- Withstands cable pulling loads of up to 2,000 lb.\*
- Each roller rides on rated bearings
- Steel welded frame

### Smarter

- Compact design
- iTOOLco Tray Roller Accessory (TRA500) can be mounted to it
- Versatility to handle a variety strut types & supporting members
- Rollers glide smoothly – even with multiple cables in the tray
- Can install above or below the tray

Roller clamps to rung, strut, or I-beam. Simply tighten the bolt onto supporting member and install locking underpins.

Compatible with our Tray Roller Accessory (TRA500)
