

MULTI ROLLER™

iTOOLco

**RIG THE PERFECT ANGLE
– EVERY TIME**

Two picking arms – each with
five adjustment holes – make it easy.

Picking arms have
8" of adjustment.

**Unlimited configuration
opportunities**

Extra deep sidewalls

- Made of 1/4" 6061 aluminum.
- Keeps wire safely nested between walls during pull.

Wide design

Extra wide 5" profiled rollers for smooth and easy pulling. Each roller rides on rated bearings.

Easy to load

TWO DYNAMIC SIZES

Perfect for vertical pulls, but can also be installed horizontally for navigating difficult corners.
