

TRAY ROLLER

iTOOLCO.

NEW PRODUCT LAUNCH: ATR-500

FASTER

Installs faster than
standard cable rollers

SAFER

Enables secure vertical
rise and drop of cable

SMARTER

Handles tray rung
spacing from
10" to 20-1/4"

VERSATILE DESIGN

Adjusts quickly and easily to varying rung spaces.

Base unit is adaptable for top roller assembly.

No loose pieces and no additional tools required.

SMOOTH CABLE PULLING

Phenolic rollers cradle cable
and glide smoothly.

Won't damage cable or wire.

Tray Roller Accessory

Model: TRA-500

Top roller attaches quickly
with the t-handle pin.

Arm length can be adjusted to
fit into tighter spaces.

Combined assembly works with
stacked cable trays and can
be mounted above or
below the tray.

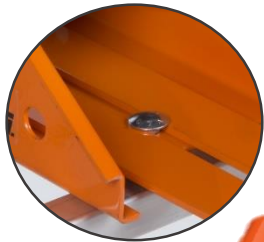

Tray Roller Accessory easily attaches to the roller bolt.

Phenolic Roller rides smoothly on rated bearings.

Wing Nuts (2) secure tray roller to rungs.

Functional Design means it can be mounted above or below the tray.

Adjustable Steel Slide Support resizes quickly and fits rungs spaced from 10" to 20-1/4" apart.
