

MC CART™

ROUGH IN AN ENTIRE SUITE USING ONE CART

iTOOLco.

Loads with ease. Simply tip forward.

Cable Mate holds one 250' coil of MC and detaches easily

Sets up vertically or horizontally

The MC Cart™ is a revolutionary new cable cart designed to transport up to two 1000' spools and one 250' coil of MC cable at one time (as sold). Strong yet lightweight, the MC Cart makes it possible for electricians to rough-in an entire suite using only a single cart to transport the wire required. All-welded steel construction, the MC Cart™ won't tip over and glides effortlessly around jobsites on heavy duty wheels.

With a unique front-loading carriage, the MC Cart™ eliminates the need to lift heavy spools. Loading two 1000' spools is as easy as tipping the MC Cart™ forward and rolling the spools into the axle saddle.
