

REAL TENDER™

NO MORE LIFTING HEAVY WIRE SPOOLS

iTOOLco.

Great for moving MC Cable.

Axle-less technology makes loading and unloading easy.

The iTOOLco Real Tender™ is a smarter rope tender that rolls over rough terrain on the job site. Lightweight and maneuverable, it's easy for one person to set up and transport - and it prevents rope-lifting and handling injuries. With an axle-less technology, the Real Tender™ is multi-directional and can be used horizontally or vertically making it flexible on the job. The crank handle makes re-spooling significantly faster. The Real Tender™ also keeps expensive rope high and dry.

Re-spool faster than ever.

FASTER SAFER WORKSPACE

Website

REAL TENDER™

NO MORE WASTED TIME PULLING UP A ROPE

iTOOLco.

CUSHIONED HANDLES

Ergonomically designed for comfortable mobility.
