

# 3K & 6K SAFE PULL RUNNING LINE TENSION METER MOUNT

NOW YOU CAN RECORD PULLING FORCES WITH OUR SMALLER PULLERS

**iTOOLco.**

Replaces the Main Extension on any 3K or 6K Wire Puller

Works in Overhead, Underground & Side Pull Applications

SPRLT20K Connects to SPRLT36 Mount Using 2 Pins

Now you can mount your Safe Pull Running Line Tension Meter in-line with your 3K & 6K wire pullers. Designed to substitute the main extension, the SPRLT36 quickly attaches to the puller for easy pulling calculations. Once you have attached the Running Line Tension Meter to the mount, simply feed the rope through the Running Line Tension Meter and pull. The SPRLT36 is engineered to allow the pullers to still pull out an extra 9' of wire fully extended. Providing a safe & accurate way to collect your pulling data.

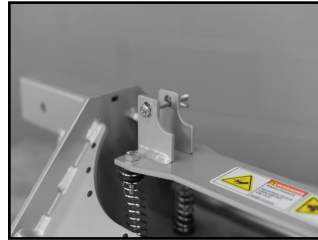

\*SPRLT36 Mount & Running Line Tension Meter (SPRLT20K) Sold Separately.

**FASTER SAFER WORKSPACE**

# 3K & 6K SAFE PULL RUNNING LINE TENSION METER MOUNT

HAVE YOUR SPRLT20K MOUNTED IN-LINE ON YOUR WIRE PULLER

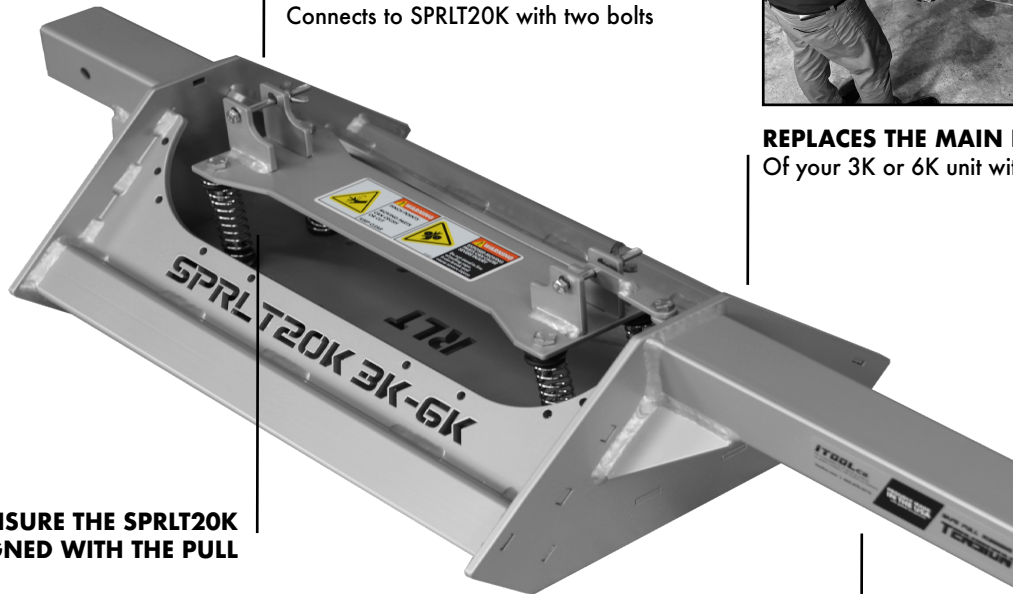

**iTOOLco.**

**CARRIAGE FOR RUNNING LINE TENSION METER**  
Connects to SPRLT20K with two bolts

**REPLACES THE MAIN EXTENSION**  
Of your 3K or 6K unit with just two pins

**SPRINGS ENSURE THE SPRLT20K STAYS ALIGNED WITH THE PULL**

**WEIGHT RATING MATCHES YOUR WIRE PULLER**  
Designed for use with iTOOLco's 3K & 6K pullers
